THE LEBS

Michael Mohammed Ahmad 

Trade Paperback 9780733639012 | \$27.99
Ebook 9780733639029 | \$14.99 | Hachette Australia

'Bani Adam thinks he's better than us!' they say over and over until finally I shout back, 'Shut the fuck up, shut the fuck up, I have something to say!'

They all go quiet and wait for me to explain myself, redeem myself, pull my shirt out, rejoin the pack. I hold their anticipation for three seconds, and then, while they're all ablaze, I say out loud, 'I do think I'm better.'

Bani Adam is a student at Punchbowl Boys High School, which seems like the arse end of the earth, and the students don't seem to care. The Lebs control the school, and Bani feels at odds – a romantic in a sea of hyper-masculinity.

Bani must come to terms with his place in a world of hostility and hopelessness – with a dream of having so much more.

KELLY RIMMER

As a child my favourite book was . . .

Johanna Spyri's *Heidi*. I remember the awe I felt reading it for the first time – how miraculous it seemed that an author could use mere words to transport me from Western Sydney to the Swiss Alps! It felt like magic.

Before *I Let You Go* was inspired by . . . the complex relationship between sisters, and the impact of real-world laws around addiction in some US states.

Describe *Before I Let You Go* in a sentence. Sisters Annie and Lexie Vidler share an intense bond after a difficult childhood – but Annie's addiction stretches that bond to its limits, particularly once her daughter Daisy is born.

When I'm not writing I . . . am, for better or worse, thinking about writing.

My favourite place to curl up with a book is . . . any place is a good place for reading!

THE WOMEN'S BRAIN BOOK

Dr Sarah McKay 

Trade Paperback 9780733638527 | \$29.99
Ebook 9780733638534 | \$16.99 | Hachette Australia

This is not a book about the differences between male and female brains, nor a book using neuroscience to explain gender-specific behaviours, the 'battle of the sexes' or 'Mars-Venus' stereotypes. This is a book about what happens to the brains of women as they cycle through the phases of life, which are unique to females by virtue of their biology and in particular their hormones.

In this book Dr McKay will give insights into brain development during infancy, childhood and the teenage years (including the onset of puberty) and also take a look at mental health as well as the ageing brain.

The Women's Brain Book will weave together findings from the research lab, interviews with neuroscientists and other researchers working in the disciplines of neuroendocrinology, brain development, brain health and ageing, and stories and case studies where relevant.

DR SARAH MCKAY is an Oxford-educated, respected neuroscientist and the founder of the Neuroscience Academy. She specialises in translating brain science research into simple, actionable strategies for peak performance, creativity, health and wellbeing.

ENJOYING RETIREMENT

Ebook 9780733639838 | \$16.99 | Hachette Australia

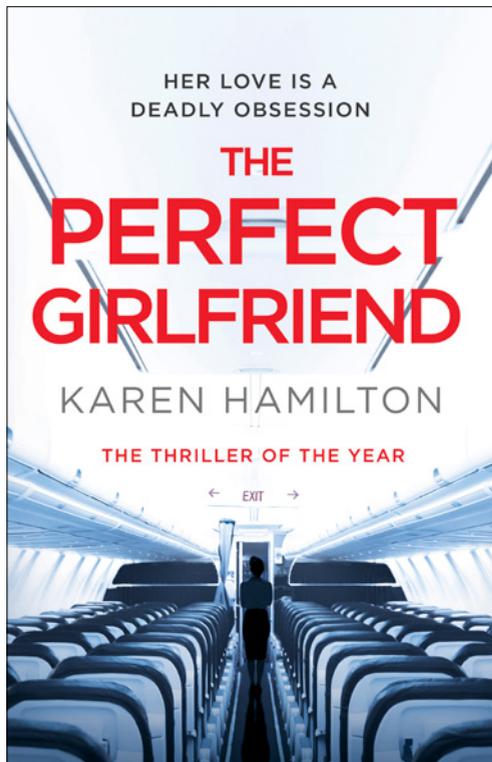

In 1964, 8% of the population were aged 65 and over. In 2014, it was 15%. In fifty years, the number of older people in Australia more than tripled, from 948,100 to 3.4 million. These trends are predicted to continue into the future, particularly as the baby boomer generation ages.

Based on population projections by the Australian Bureau of Statistics, by 2064 there will be 9.6 million people aged 65 and over. That means Australia already has millions of retirees, and is about to have even more. In all likelihood, most of them will not feel ready for the next phase of their lives. *Enjoying Retirement* exposes the myths surrounding retirement and explains why so many people are unprepared for it.

MICHAEL LONGHURST has worked as a consulting psychologist who has specialised in the psychological challenges people face at key turning points in their lives, from adolescence to bereavement. He is an internationally-published author and leading authority in the area of adjustment to retirement.

This essential book provides advice on relationships with partners and family, skills in conflict resolution, maintaining financial stability, dealing with issues such as loss, and, most importantly, living a full and happy life in retirement.
